Known History

Chris owned a service station in Klerksdorp called Fyfster Dienssenter where his mechanic in 1977 made unknown person an offer for this Flamingo. Due to lack of funds, Chris bought the car for his mechanic although he never received any payment. He eventually kept the Flamingo for himself and is still in safe storage in a barn on his farm near Sannieshof. It still has its original 1500cc engine. This is the newest Flamingo known in the GSM Club history.
