Known History

Gordon Hall from Natal bought the Flamingo from Gerrie Everts in February 2007. At the time the car was in a very poor condition. Gordon totally stripped the car and started the restoration project with meticulous detail. He compiled a detailed photo album of all the stages of the restoration project.

Gordon and Jackie was rewarded for all the hard work by taking the 1st prize in the modified Flamingo class at the Golden Jubilee in September 2007.

They decided to emigrate to New–Zeeland during 2008 and sold the car to Deon and Annatjie Smit from Somerset-West. The car was brought to the Cape where the GSM expert, Clarry Taylor finally completed it in fine style.
