Known History

The Flamingo was bought by Denzil Snyman in 1988 from a car dealer in Rosebank. He was told he is the 3rd owner. Denzil moved to Port Elizabeth. A year later he sold the car to Des De Nekker. Being a racing enthusiast, Des was the driving force behind motor sport in PE for many years. The Flamingo sported with the very highly modified 1600 Kent motor which was lightened and balanced and tuned to rev to 9000RPM. The car won the classis championships as well as the drag racing championships in its class a couple of times during the nineties. It also did a ¼ mile time in 14,35 sec. It was first fitted with 14” classic ansen 5 stud alloy rims and later with 13” genuine mini lights. In 2003 Martin Kruger bought the Flamingo from Des De Nekker and raced it regularly at Aldo Scribante.
