**Known History:** Dart # 6104 was one of the few 1340cc (109E) engined Darts to be built after Bob van Niekerk returned from the UK. It also has the MK 2 bonnet. It is the sister car to Clarry Taylor. History from 1961 to 1985 is unknown but during this time the Dart was sent to Germany. The first registration we know of is when the car was bought by John Nigel Graham Belsey on the 17<sup>th</sup> September 1985 who later sold it to Alan Roy Davenport on 1<sup>st</sup> August 1988. It was then sold to Hennig Spille on the 18<sup>th</sup> September 1990 with registration no: CSV 482. Hennig Spille still owns the Dart.
