Known History: First registration of car was in 1964. Registration no: CY 214797. Motor 1500 Ford non cross-flow. In 1983 Mr Johan Keller first bought the car from an advocate who lived in Windhoek but had moved to Platteklouf. Johan took 6 months to rebuild the Dart. He put a Cortina GT motor and gearbox in. In 1993 he sold the Dart to his brother Fred Keller who then changed the color to Silver. The strange thing about the Dart is that it has a windscreen frame of the earlier models. He changed the 5½ J pressed rims for cyclone wheels. The car is in everyday use. Vehicle original except for seats and wheel rims.
